

Dear Mom,
Congratulations on becoming pregnant, I can't wait to have
a new baby sister or brother!!
20 cigarettes a day might make you feel a lot better...
But think about the baby I would really like this one to make
it to its birth, and you to make it to when I have my first
baby, when I walk down the isle, when I get a fantastic job.
Think about it Mom you're killing everyone not just yourself.

Smoking it's the start and end of broken
Lives.
